

The Alachua County Property Appraiser maintains one of the largest property information databases in Alachua County. Our department can produce a number of maps, reports, and label formats for a nominal fee. Our Map Gallery has a variety of custom maps that can be downloaded free of charge. If you want a full size color copy of an existing map from the Map Gallery you can make a request to the Alachua County Property Appraiser and the map can be printed for a cost of \$7.00 per copy. If you want a custom GIS map that is not in the Map Gallery we can create it to fit your needs. There is a hourly charge of \$50.00 for this service. Please contact the Alachua County Property Appraiser at (352) 374-5230 for additional information and for placing orders.
